Subject: Meeting on monday at Ft. Meade

Den/Jerry,

I wanted to give you a heads up that Stephen Watkins from ORD has asked us for a quick briefing on how we are handling data. We were already working on travelling to Ft. Meade on 5/7 anyway. So when I suggested that location and date, he was willing to meet us there. OK?

The rest of the meeting will be for us to discuss current issues and plans with the lab and also lessons learned.

Rich

Subject: Dimock AM Amendment/Summary Draft

Den/Jerry:

Here's my first cut at the Dimock AM Amendment/Summary. I know there may be some things we still need to consider....but I thought I'd get the process rolling since we have money to fund the site until June 15th.

Let me know your thoughts.

Also, I think we need to revise the Enforcement Confidential too. I don't have that document at all. I am now even sure who was the original author.

Rich

Subject: QA Process Documents

Den/Jerry,

Here's what we have to offer. There are 3 documents:

1. QA Process Exec Summary - Companion Document - This is the overall summary of the other two documents and then the support emails, etc. **Ex. 5 - Deliberative**

2. Summary of Data Review Process - This is a technical summary of the process. It still needs some work in general and input from Ft. Meade. **Ex. 5 - Deliberative** It should summarize the technical memo from SERAS and the supporting emails and general address the issues on a technical basis for technical readers.

3. SERAS Memo - This is a work product from SERAS that we asked for. it summarized their work in the process and is supported by the emails between SERAS and EPA. **Ex. 5 - Deliberative**

Ex. 5 - Deliberative

OK?

Hope this is clear and close to what we discussed.

I would expect that you and Jerry would want to discuss this after you have a chance to read/digest. Let me know. Kelley, John and I are available.

Rich

p.s. Rupert...just FYI to keep you in the loop.

Subject: Status of R3

Hi Robin - sorry - but I am officially being a pain. Also tried to contact Cindy - not sure if she is in. I was asked to get an update from Ft Meade regarding the status of analytical and data validation for the 4 homes we re-sampled (HW-4,6,7 and 8a). The samples are being analyzed for metals only. Apparently we were hoping for lab-validated final results by Thurs 6/6 - would

you be able to check on the status? We were asked to update RA this afternoon. THANKS!!!

Subject: Analytical Information Request

Den/Jerry,

Attached is the historical pull from what we have in Scibe (Cabot/PADEP data) for HW8a (Ex. 6 - Personal Privacy) Here are some ranges.

The iron range is - 4700 ug/L (max) to 27 ug/L J (min),
The manganese range is 203 ug/L (max) to 88 ug/L (min).
The methane range is 21,630 ug/L (max) to 18 ug/L (min).

There was not historical data for sulfur.

For the entire EPA data set that is FINAL (61 homes) here are some statistics. Units are in ug/L. The information below is on the detected Iron/Manganese/Methane data from EPA sampling only. Non-detects were not included in this data set calculation. If anything, this makes the numbers higher.

	Min	Max	Average	Standard Deviation
Iron	106.00	11,200.00	1,198.84	2,254.15
Manganese	1.00	947.00	76.20	163.88
Methane	0.60	77,000.00	10,135.74	16,644.99

Just as a reminder the 2nd round data (lab validated) for (Ex. 6 - Personal Privacy) for manganese is 942 ug/L and iron is 121 ug/L. As you know we did not analyze for methane.

Den/Jerry,

Here's my current draft. Its probably close enough to share with Shawn on Monday. I am still revising, as we discuss it among our team. Let me know your comments.

Here are a few things that are still concerning me.

Ex. 5 - Deliberative and Ex. 6 - Privacy

As you can see, there are many unknowns, but I did my best for now.

Subject: Re: FW: **Ex. 5 - Personal Privacy** Plan

Den,

I have no changes to your edits. I am not sure that Kelley or Rich have any either, but am cc'ing them just in case they might. I have discussed previous versions with both of them. I think you can send this version up the chain.

One other idea Rich had was to possibly have the lab re-run the manganese at **Ex. 6 - Personal Privacy**. Probably a good idea, but that timing may have passed in affecting our decision-making. I am not sure about your thoughts on that and thought I would check first. With metals, there is a very long holding time, so I am sure it still could be done. Let me know.

Subject: Dimock AM Amendment - 6-18-12

Den,

I have made all the corrections/changes suggested by you and Humane Ex. 5 - Deliberative am waiting to see if Heather will have comments tomorrow. Otherwise, as far as I am concerned, I think we are ready to send it to HQ for

their review. I will check in with Heather/Humane tomorrow morning and get you the final draft asap.

Subject: Dimock AM Streamline - Version 2

Den,

Ex. 5 - Attorney Client

Ex. 5 - Attorney Client Please review and comment on this version below. I think the threat language better captures our current situation than the previous draft language. **Ex. 5 - Attorney Client**

Ex. 5 - Deliberative

It follows the standard AM format and provides cost information to cost recovery as we are required to do.

Again, let me know if you have any questions or wish to discuss it.

Den,

Here's the latest. I am pretty confident I got all the changes from you and Heather addressed in here. So, I made it a clean copy so everyone could give it a final read.

My hope is that there are no other issues/comments. But if so, I am available in the morning to discuss and work through. around 8:30am would be the best time, if we need to do anything.

Let me know.

Rich

Subject: QA Review Process Documents to accompany the release of the raw data

Den/Jerry,

Here are two of the three documents we have been working on to accompany the release of the raw data. They are the executive summary and the technical summary. The SERAS memo is being modified and will be available by end of this week. That will be sent out when we get it.

Since I will be away until Monday 7/16, please get your comments back to Kelley. Anything significant changes we can discuss on Monday.

Attached are four types of form letters to transmit the results to the 64 homes next week. Results do typically get sent to both renters and property owners, so the universe of letters going out will be around 70 total,

There are:

- 3 - 1st Round supplemental homes - 1st Round Supplemental Results Letter.docx
- 4 - Homes being provided alternate water by EPA - Alternate Water Results Letter.docx
- 8 - Non- alternate water home that have Isotech Analysis results, along with RAD and Lithium Re-Runs - RAD Isotech Lithium Rerun Results Letter.docx
- 49 - Non-Isotech, Non Alternate water, with RAD and Lithium Re-Run - RAD Lithium Rerun Results Letter.docx

I have attempted to address all the comments received thus far. I had planned to get these forms to Joanna by COB tomorrow (Friday 7/20). So, if you can, (I know there may be other priorities) please take another look at these. Please get me your comments by COB tomorrow. Joanna will be finalizing these on Sunday, 7/22.

Thanks. Rich

Subject: QA companion documents to the Raw Data Release

Den,

Here are the documents we took a cut at regarding Humane's review. Not sure where we go from here. I have noted where Kelley and I think that Ft. Meade needs to weigh in, unless we don't make the changes. I have also noted where I disagree with changes and have changed the document back to original.

Call me either tonight or early tomorrow morning if your want to discuss. I am off and headed to Harrisburg by around 9am. I am back home tomorrow night and around during the weekend.

Subject: Plans for today

Den/Jerry,

I have arrived at the site and talked with Joanna.

1. She has everything she needs to complete the mailing of the 57 packages to residents. She is having some difficulties with getting proper addresses related to the UPS overnight mailing labels. She is working through that.

2. We will still need some final tweaks on the 4 letters to the residents being provided alternate water, but I am ready to call them this morning with the following message

Ex. 5 - Deliberative

Ex. 5 - Deliberative

3. We are also finalizing the letters to the 3- 1st round supplemental homes, but still need to address removing the microbiology data in the letter. I am waiting for Kelley to arrive for some further discussion until we have Joanna call these residents. Should happen in the early afternoon today.

OK?

Please let me know if we are good with this plan. Particularly #2 above and the message. Call to discuss if needed.
